AIR-CONDITIONED, COMPLETELY NEW 2-LEVEL APARTMENT | UNIQUE 2-LEVEL LOFTS IN THE OLD PRINTING HOUSE | LOFTS IN FUSION | RESTORED BUILDING OF THE OLD PRINTING HOUSE - G2 | NEW BUILDING | 1ST FLOOR | LOFT WINDOW + BALCONY

BUILDING: The Old Printing House is one of the restored buildings included in the Fuzja project . This modern building with a historic façade boasts all the amenities of new construction: modern staircases, elegant common areas, and elevators. The original walls of the historic buildings have been restored, including the authentic Łódź brickwork that distinguishes the factory buildings. The cast-iron pillars, staircase elements, and window glazing have also been restored. The common spaces surrounding the lofts and loft apartments are finished in a minimalist style using concrete, tempered steel, and glass. One interesting feature is the adaptation of the cast-iron columns that once supported the ceilings, which will now welcome residents and guests with an original colonnade.

ABOUT FUZJI: A unique project consisting of 20 mixed-use buildings, 14 of which are adapted historic buildings. Its heart is a historic Art Nouveau CHP plant and the surrounding square, built on the site of the former Karol Scheibler factory. Modern residential buildings and office buildings have already been completed, including the Łódź offices of the Fujitsu Poland Global Delivery Centre.

FOR RESIDENTS: Residents' Club, a creative playground for children, Anna's Gardens – a leafy square, and historical details – staircases with original artifacts harking back to the industrial past. Archicom Smart eco-friendly solutions – smart home solutions, a wireless smart home management system. Archicom Life Services – smartphone app access to common areas, a parcel pickup point, an electric vehicle charging station, recreational areas, and bicycle storage.
